

Back to School from Different Points of view

This document is a cartoon which represents/ illustrates the feelings and reactions of five different characters on their first day back to school.

The girl on the left looks as happy as the mom , they are jumping and smiling, with their fist up, their knees are up .The girl is shouting ' Yippee' and the mom 'Yessssss'.The girl has lunch box and two bags : a backpack in the back and a handbag on her left shoulder.

She is in Grades 2 to 6 which is the equivalent of Primary school.

She may be happy because she's going to meet her friends again.

Contrary to the girl and the mom , the three other characters are sad ,tired, exhausted, desperate .

The toddler who is crying **wants** his brother **to** take him in his arms, he wants a hug. He **doesn't want** his brother **to** go to Middle school, neither he wants to go to kindergarden **since** he is K-1

The teenager is wearing a dark Tshirt **on which** there is a logo 'A ' for Anarchy.

The student is exhausted, he's sticking his tongue and saying 'UGHHHH' because his backpack is very heavy. It's so much filled up that papers are falling down.

Contrary to him the mother is in a good mood **since** her children left home and she will be able to (capacité au futur) whatever she wants to.
